### Staff recommends **DENIAL**:

- The UC zoning district is intended for individual ownership of the units, not for leasing all the units.

- The UC projects previously approved by the Board of Commissioners have not been for leased units; approval of the request may give the applicant an unfair advantage over nearby owner-occupied projects, which are slowly selling units.
- The applicant's proposal would be compatible with other uses in the area, which includes residential, commercial and offices. However, the applicant's proposal would be for leased units, which is not supported by the UC zoning district.
- Additionally, the applicant's proposal includes two substantial variances to the UC zoning district:
  1. Reduce side setback from 35-feet to 10-feet;
  2. Reduce the required number of parking spaces from 560 parking spaces to 480 parking spaces
